# Announcement

Storehouse WV has the following Science Laboratory items in stock!

Located at:  
1313 Hansford Street  
Charleston, WV

Storehouse West Virginia™ is a gifts-in-kind warehouse that receives donated items from manufacturers and retailers and gives them away to 501 (c) (3) non-profit groups and churches. Items received include: building materials, food, clothing, personal care items, stationary supplies, books, and a wide variety of other things. What we have changes from truckload to truckload. The items we give away are primarily to be used “for the care of the ill, the needy, or infants.” We believe that if we help a 501 (c) (3) organization it normally benefits these groups, whether they are giving away the items directly to those in need or using them internally, which allows them to save funds that will allow them to further help the community.

The Storehouse is normally open on Tuesdays and Thursdays, between 10 AM and 5 PM, **by Appointment only**. **On one of our recent trucks we received in a number of items designed for a science laboratory.** Rather than just give these away to any organization we are trying to reach out to non-profit schools that will use the items for their intended purpose. If you can use some of these items please let us know.
